

Recall Summary – European Toys

Published: 17/09/2018

RAPEX notification (Aug 2018)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1058/18	Spain	Wind-up toys Country of origin: China		Choking The chick's comb and the rabbit's ears come off easily, generating small parts. If a child puts the small part in the mouth, it could block the child's airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1059/18	France	Felt-up pens Country of origin: Unknown		Chemical The water melon-scented pen contains the fragrance benzyl alcohol (measured value: 0.025% by weight). In addition, the strawberry-scented pen contains the fragrance benzyl benzoate (measured value: 0.02% by weight) while this substance is not indicated in the list of ingredients. These substances can induce allergic reactions and sensitisation, especially if consumers are not made aware of their presence through the list of ingredients. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/1060/18	Spain	Wind-up toy Country of origin: China		Choking Both the winder of the turtle and the elephant's trunk come off easily, generating small parts. If a child puts the small part in the mouth, it could block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1066/18	Spain	Wind-up bath toy Country of origin: China		Choking The winder comes off the toy, generating a small part. If a child puts the small part in the mouth, it could block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1067/18	Spain	Squeezable ball Country of origin: China		Microbiological The total count of mesophilic aerobic bacteria in the liquid is too high (measured quantity: 4x10 ⁵ cfu/ml). There is a risk of contracting infection as the liquid may come into contact with open wounds, mouth, hands or eyes. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
A12/1068/18	Spain	Puffer toys with batteries Country of origin: China		Choking The plastic spikes on the toy come off easily and are small parts. If a child puts the spikes in its mouth, they may block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1070/18	Spain	Yo-yo ball Country of origin: China		Strangulation The cord attached to the ball is too long. The cord could wrap around a child's neck, causing strangulation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border

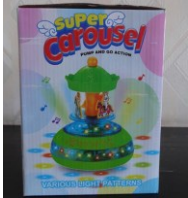

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1071/18	Spain	Tea set Country of origin: China		Choking The top of the lid of the coffee pot comes off easily, generating a small part. If a child puts the small part in its mouth, it could block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1072/18	Spain	Toy fishing set Country of origin: China		Choking, Injuries The toy contains a small magnet with a high magnetic flux which can easily become detached. If a child swallowed the magnet and other metallic objects, these could attract each other, leading to intestinal obstruction or perforation. In addition, if the magnet were put in the mouth, it could block the child's airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1073/18	Spain	Building blocks Country of origin: China		Choking, Injuries The bridge-shaped pieces can break, generating small parts and accessible sharp edges. If a child put the small parts in its mouth, they could block the child's airways and the child could also suffer injuries from the sharp edges. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1074/18	Spain	Yo-yo ball Country of origin: China		Strangulation The elastic cord of the balls is too long. It could wrap around a child's neck and cause strangulation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1087/18	Poland	Toy guitar Country of origin: China		Choking, Damage to hearing, Strangulation Small parts can detach from the toy and the strap of the toy guitar is too long and does not have a quick release mechanism. Moreover, the sound pressure level is too high. A small child may put the small parts in the mouth and choke. If the strap is worn around the neck, it could form a loop and become trapped. The absence of a quick release mechanism, enabling the child to detach the strap, can lead to strangulation. The excessive sound pressure level could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market (By: Importer)
A12/1093/18	Lithuania	Plastic toy Country of origin: Belarus		Choking Small parts (the figure's head) can easily be detached from the toy. A small child may put this small part in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/1095/18	Lithuania	Plastic toy Country of origin: China		Choking Small parts (bee's antenna, wheels' tyres) can easily be detached from the toy. A child may put the small part in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/1098/18	France	Bath toy set Country of origin: China		Choking The suction cup on the animals can easily detach. A small child may put it in the mouth, where it could obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive or the relevant European standard EN 71-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1100/18	Croatia	Fancy-dress make-up Country of origin: China		Chemical The blue colour contains aluminium (measured value: 14,890 mg/kg) and the red colour contains barium (measured value: 1,940 mg/kg). Aluminium and barium are potentially toxic if ingested. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/1101/18	Spain	Toy Gun Set Country of origin: China		Choking The suction cup of the projectile can easily detach. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive or the relevant European standard EN 71-1.	Import rejected at border
A12/1104/18	France	Plastic whistles Country of origin: China		Choking The whistles are small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1110/18	Austria	Toy trumpet Country of origin: China		Damage to hearing The sound pressure level of the toy is too high. This could lead to permanent impairment of hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1115/18	The Netherlands	Balloons Country of origin: Mexico		Chemical The amount of nitrosamines (0.16 mg/kg) released by the balloons is too high. Nitrosamines are genotoxic carcinogens via inhalation, ingestion or dermal exposure. A child can get exposed to them by putting the balloon in the mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-12.	Withdrawal of the product from the market
A12/1123/18	The Netherlands	Bow and arrow set Country of origin: Unknown		Choking The suction cup of the arrows can easily detach. If a child puts the arrow in the mouth, the suction cup could detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive or the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/1127/18	Greece	Pencils with eraser Country of origin: China		Chemical The plastic coating of the pencils contains di-(2-ethylhexyl) phthalate (DEHP). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures; Withdrawal of the product from the market
A12/1128/18	France	Modelling clay Country of origin: China		Chemical The yellow, violet and red clay contain boron (measured value up to: 2,956 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1130/18	Italy	Toy construction set Country of origin: Germany		Chemical The amount of chromium (VI) in the bricks is too high (measured value: 0.6 mg/kg). Chromium (VI) is sensitising and may trigger allergic reactions. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1131/18	The Netherlands	Soft toy Country of origin: China		Choking The eye(s) of the squirrel can be easily detached, generating small parts. A child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1132/18	France	Toy slime Country of origin: China		Chemical The slime contains boron (measured value: 1,088 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product; Recall of the product from end users; Withdrawal of the product from the market
A12/1134/18	Spain	Toy gun Country of origin: China		Choking The suction cups of the projectiles can easily detach. A child could put them in the mouth and choke. The product does not comply with the Toy Safety Directive and the relevant European Standard EN 71-1.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1155/18	Austria	Soft toy Country of origin: China		Choking Small parts (eyes, nose) come off the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product
A12/1160/18	Czech Republic	Plastic doll Country of origin: China		Chemical The plastic material of the doll's head contains di (2-ethylhexyl phthalate (DEHP) (measured value: 11.4 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1161/18	Lithuania	Musical toy Country of origin: China		Choking Small parts (wheel, stickers) can detach from the toy. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/1165/18	Poland	Plastic ball Country of origin: China		Chemical The balls contain diisobutyl phthalate (DIBP) (measured value 48.9 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The toy does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market (By: Importer)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1166/18	Czech Republic	Plastic doll Country of origin: China		Chemical The plastic material of the doll's head contains di (2-ethylhexyl phthalate (DEHP) (measured value: 18.7 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1167/18	Poland	Plastic doll Country of origin: China		Chemical The plastic material of the doll's head contains 2-ethylhexyl phthalate (DEHP) (measured value: 19.2 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market (By: Importer)
A12/1168/18	Slovakia	Plastic doll dinosaur Country of origin: China		Choking The eggs are small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1175/18	Spain	Beach toy set Country of origin: China		Choking The lorry's wheels come off, generating small parts. If a child put the small parts in the mouth, they could block the child's airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1176/18	Spain	Set of toy cars Country of origin: China		Choking The two figures are small parts. If a child puts the small parts in the mouth, they could block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1183/18	Czech Republic	Plastic doll Country of origin: China		Chemical The plastic material of the doll contains di (2-ethylhexyl phthalate (DEHP) (measured value: 25% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1185/18	Poland	Toy car Country of origin: China		Choking A small part (metal screw) can easily be detached from the toy and the excavator's boom protrudes. A child could put the small part or the protruding boom in the mouth, which could block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market (By: Importer)
A12/1194/18	Czech Republic	Umbrella with whistle Country of origin: China		Choking, Injuries A small part (whistle) can be easily separated from the toy and the caps on the ends of the spokes may come off. A child may inhale the whistle and choke. When opening the umbrella, the child can be injured by the sharp ends of the umbrella spokes. The product does not comply with the requirements of the Toy Safety Directive and the relevant standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1206/18	Spain	Kitchen play set Country of origin: China		Choking Parts of the kitchen play set can break (the sugar bowl) or detach (handles of the knives and the stem of the tomato), generating small parts. The teapot lid is also a small part. If a child puts the small parts in the mouth, they could block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1208/18	Austria	Musical toy Country of origin: China		Damage to hearing The sound pressure level of the flute is too high. This could lead to impairment of hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1211/18	France	Ride-on toy Country of origin: China		Entrapment, Injuries The wheels can detach, leaving a protruding part accessible. The steering column can detach and there are accessible gaps between the wheels and the body of the toy. A child could fall, especially on the protruding end which could cause injuries. The gaps may result in the entrapment of fingers. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1212/18	France	Toy slime Country of origin: China		Chemical The migration of boron from the product is too high (measured value up to 1,853 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1224/18	Germany	Plastic doll set Country of origin: China		Chemical The plastic material of the doll contains di (2-ethylhexyl phthalate (DEHP) (measured value: 12.7 % by weight) and dibutyl phthalate (DBP) (measured value: 0.16% by weight). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market (By: Importer)
A12/1227/18	Poland	Plastic doll Country of origin: China		Chemical The plastic material of the doll's legs contains 2-ethylhexyl phthalate (DEHP) (measured value: 1.2 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market (By: Importer)
A12/1231/18	France	Wax crayons Country of origin: United States		Chemical The migration of aluminium from the dark blue crayon is too high (measured value: 8,992 mg/kg). Aluminium is potentially toxic if ingested. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-3.	Recall of the product from end users
A12/1232/18	France	Toy Slime Country of origin: Unknown		Chemical The migration of boron from the toy slime is too high (measured value: 529 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1233/18	Czech Republic	Baby book with light Country of origin: China		Chemical, Choking When swallowed, button cells can trigger the generation of sodium hydroxide in the body. Sodium Hydroxide is a highly corrosive substance. Exposure to sodium hydroxide leads to severe burns and tissue damage. Moreover, the button batteries and a piece of foam rubber can be easily detached from the toy. A small child could put either of them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1234/18	France	Toy Slime Country of origin: China		Chemical The migration of boron from the toy slime is too high (measured value: 3,151 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users (By: Importer)
A12/1239/18	The Netherlands	Balloons Country of origin: Spain		Chemical The amount of nitrosamines released by the balloons is too high (measured value up to 0.36 mg/kg). Nitrosamines are genotoxic carcinogens via inhalation, ingestion or dermal exposure. A child can get exposed to them by putting the balloon in the mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-12.	Withdrawal of the product from the market
A12/1244/18	Poland	Push-along toy Country of origin: China		Choking Small plastic parts (wheel pins, cylindrical elements on the rooster's tail and on the rod) can easily be detached from the toy. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market (By: Importer)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1245/18	Finland	Soft plastic toy Country of origin: China		Choking Small parts of foamy plastic material can easily be detached from the toy. A child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1248/18	Czech Republic	Plastic doll Country of origin: China		Chemical The plastic material of the doll contains di-(2-ethylhexyl) phthalate (DEHP) (measured value: 4.6% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1249/18	Czech Republic	Plastic doll Country of origin: China		Chemical The plastic material of the product contains di-(2-ethylhexyl) phthalate (DEHP) (measured value: 14% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1253/18	France	Children's gardening set Country of origin: China		Injuries The teeth of the rake are not sufficiently protected and the yellow hoe has rigid components in the form of projections. A child playing with the rake or the hoe may injure itself. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users (By: Importer)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1254/18	Germany	Soap bubble toy Country of origin: China		Microbiological The soap solution of the toy contains mesophilic aerobic bacteria (measured quantity 3.8x10 ⁵ cfu/g) and the presence of Pseudomonas aeruginosa has been detected. There is a risk of contracting infections as the solution may come into contact with the mouth, hands and eyes. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users (By: Importer)
A12/1257/18	Poland	Plastic toy Country of origin: China		Chemical The plastic material of the toy contains 2-ethylhexyl phthalate (DEHP) (measured value: 9% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market (By: Importer)
A12/1258/18	Finland	Squeezable toy Country of origin: China		Choking Small parts of the foamy material can easily be detached. A child could put the small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Recall of the product from end users

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Aug 2018)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
18-206	U.S.	Pull-back speedy jets Country of origin: China		Choking The rubber tires can separate from the wheels, posing a choking hazard for young children.	Consumers should immediately take the recalled toy away from children and return it to the store where purchased or contact the importer for a full refund.
18-763	U.S.	Rubber critter toys Country of origin: China		Chemical The orange and yellow surface paint on the rubber critter toys contains levels of lead that exceed the federal lead paint ban. Lead is toxic if ingested by young children and can cause adverse health issues.	Consumers should immediately take the recalled rubber critter toys away from children and contact Importer for a merchandise credit. The importer is contacting all known purchasers directly.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

STC (The Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)
